Social Agreement
Po-River Chiefdom
(Garraway Administrative District)
Final Version
22ND August, 2014
Provisional Memorandum of Understanding
Incorporating Social Agreement

THIS Provisional Memorandum of Understanding (MOU) is made and entered into this 10-23-2014 between Golden Veroleum (Liberia) Inc., Republic of Liberia, a Liberian Domestic Corporation, (hereinafter referred to as “GVL”) represented by its Authorized Signatories, named on below, and the undersigned communities of Po-River in Garaway Administrative District of Grand Kru County, Republic of Liberia, (hereinafter referred to as “Community” or “Communities”) represented by their Authorized Representatives, named below.

This MOU terms further incorporate the Social Agreement between GVL and the Communities.

RECITALS:

WHEREAS, on 2 September 2010 GVL was granted rights by the Republic of Liberia under the provisions of a 65-year agricultural concession agreement (the “Concession Agreement”) to engage in the development of land for oil palm and the production and sale of palm oil products, and the Concession agreement is by reference included herein;

WHEREAS, the GVL investment is a business venture which additionally brings considerable benefits to communities in terms of jobs, careers, capacity building, infrastructure, and other social and economic benefits, while also implying changes in many matters of lifestyle and activities of Communities.

WHEREAS, the Communities have invited and hereby confirm GVL to develop land in their Community areas (whether held under customary, traditional, communal, tribal, private usage or forest management or other rights, permits, certificates or titles), for GVL plantings and facilities together with a Community Oil Palm program.

WHEREAS, GVL and Communities have agreed to jointly collaborate and through mutually participatory mapping have identified and shall further identify, a minimum of 3009.16 acres of land for the development of oil palm by GVL and 601.82 additional acres of land as may be required for the use of the Community (with support from GVL) to establish a Community Oil Palm program.

WHEREAS, The Communities have determined or will furthermore determine to their considered satisfaction that such land identification for oil palm purpose still provides for and leaves necessary amount of land for other needs.

WHEREAS, this MOU outlines the process of engagement for future assignment of land for oil palm development, the social, employment and other economic benefits offered by GVL to the Communities, and the Communities’ and GVL’s approach to resolving grievances should they arise.

WHEREAS, this MOU shall respectfully be registered through the Liberian Legal system and become binding upon the parties hereto, their respective representatives, members, agents, counselors, heirs, successors in office, administrators and assigns, whether past, current or future, as though they were specifically named herein;

NOW, THEREFORE, in consideration of the foregoing, Communities and GVL parties have agreed as follows:

A) Preferences to be provided by GVL to Communities Citizens

GVL agrees to provide preference and priority to Communities citizens for jobs and employment, training, promotion, college and university scholarships and business opportunities in accordance of Appendix A.
B) Benefits to be provided by GVL to Communities Citizens Employees of GVL

GVL agrees to provide agreed, timely wages, salaries, free housing, free health care, free education and schooling of children in accordance of Appendix B.

C) Benefits to be provided to Communities even if not employed by GVL

GVL will provide USD $5 per each hectare payments on developed land, repeated every year, to the Community Development Fund, which will be governed with the Communities themselves for development projects; GVL will also construct and rehabilitate roads and bridges; additionally GVL will provide Communities citizens access to GVL schools, university and college scholarships, health care facilities; and GVL will provide business opportunities to Communities entrepreneurs, and GVL will consider the Community for industrial development of an Oil Palm Factory Mill, in accordance of Appendix C.

D) Community Oil Palm Program supported by GVL

GVL will support the Communities in the construction of a Community Oil Palm Project, which will be owned by the Communities and its members. GVL proposes that the Community Oil Palm area will be in ratio of 1 acre to every 5 acres the Communities have assigned to GVL. The program will be offered in accordance to Appendix D and subject to terms, considerations, rules and regulations to be agreed with the Communities and program participants.

E) Development Employment Analysis Based on Available hectares

Employment will be offered by GVL based on various stages of plantation development. Where there are nursery establishments, employment at the nursery will be on short term bases for maximum of three years. Community Oil palm might also provide 20 percent of field jobs when fully implemented. Where possible and where required skills exist locally, GVL will give job preference to employ communities and will try to offer jobs according to community amount of land size offered. Recruitment shall be the sole responsibility of management; all shall be in accordance with Appendix E.

F) GVL Commitment to Communities regarding Potential Impacts

GVL will not pursue resettlement of the Community people from their villages or towns. This has always been GVL policy and GVL has never resettled anyone and has not required anyone to do so. GVL commits to adherence to all the affecting laws and regulations of Liberia and to international regulations of RSPO to good practices, and to partnership with the Communities, in accordance of Appendix F.

G) Communities Commitment to GVL

The Communities commit to adherence to all the affecting laws and regulations of Liberia to good practices, and to partnership with GVL, in accordance of Appendix G.

H) Issue and Grievance Resolution process

Given the long term nature of the partnership, it is possible that disagreements or differences may arise as between community or individual citizens and GVL. The company and community recognized the importance of addressing and resolving any such differences in a friendly and timely way and as such have agreed to the attached Grievance Resolution Process included in Appendix H.

I) Statement of Acknowledgement

As an official endorsement of the agreed lands for development and confirming the detailed participative mapping and FPIC engagement process undertaken by the community and GVL, the community formally attests to and signs the development map, being current at date. The community acknowledges and affirms that it may wish to enter into future negotiations for transfer of additional lands, and

2014-8-22 Provisional MoU and Social Agreement Po-River
that updated maps will be appended to and become part of this social agreement. The formal endorsement is contained in Appendix I and is an integral part of this MOU.

J) Documents of Reference

GVL and the Communities hereby acknowledge incorporation into this MOU of the reference documents listed in accordance of Appendix J.

This PROVISIONAL MOU shall remain in force until final MOU / Social Agreement is signed - with mutual intent to do so one year after land preparation. The final MOU will include the same terms and any changes or additions as mutually agreed by the parties. By signing this Provisional MOU, the communities authorize GVL to start operations and land development in the areas referred to on the attached maps. The Final MOU will endure for the life of the Concession Agreement, unless otherwise mutually agreed by the Parties hereto.

GVL Commitment to Communities and Citizens Regarding Potential Impacts

1. Land Negotiations and No Resettlement
   a. GVL will not pursue resettlement of the Community people from their villages or towns. This has always been GVL policy and GVL has never resettled anyone and has not required anyone to do so.
   b. As a member of the RSPO, and responsible investor in Liberia, GVL follows a strict process of conducting environmental assessments and intensive social engagement as part of the process of obtaining land for oil palm development to ensure the community gives its Free Prior & Informed Consent (FPIC) for any land over of land for development – this is done before starting any development in an area. As part of this, Communities and GVL have a signed MOU from the beginning of engagement ("FPIC engagement Agreement", signed at start of mutual engagement).
   c. This FPIC engagement process will be an ongoing process subject to community desire and willingness to offer additional areas for development

2. Adhere to all Liberian Laws and Regulations
   a. GVL agrees to adhere to and observe applicable Liberian Laws and regulations.
   b. GVL will adhere to the Environmental Protection and Management Law of Liberia, the New Forestry Reform Law of 2006 or any other law or regulation of Liberia, regulations of the Environmental Protection Agency (EPA), Forestry Development Authority and the principles of the Roundtable on Sustainable Palm Oil (RSPO).

3. Respect for Community culture and sacred values
   a. GVL has and shall make every effort to identify with community participation and clearly enclav/avoid damage to any of the following during the land preparation process, as specified in our agreed and completed FPIC and participatory mapping processes.
      i. Community’s protected areas, including cemeteries, shrines, sacred forests, special forest collection areas (e.g., for special medicines)
      ii. old towns community wishes to preserve
      iii. other agreed cultural or economic items that are identified by community as important to its well being
   b. GVL and Community acknowledge that given the history of Liberia, and the movement over the past 30 years of citizens away from community areas, it is possible that some of these sites may be difficult for community members to identify. The communities commit to address and resolve any such mistakes internally before discussing with GVL.

4. Compensation for active farms:
   a. Before any agreement to convert active farms to GVL farms, GVL and individual farmers will carry out field survey and crop count. If there is agreement by farmer and GVL to convert farm, compensation will be at a rate set by the Ministry of Agriculture or other rates as may be agreed from time to time. If agreed, compensation will be made in open forum with witnesses and decision is final and binding on both company and farmer.
APPENDIX G

Community Commitment to GVL

1. Allow GVL safe and undisturbed use of agreed GVL farm areas:

2. Mutual collaboration to resolve any emerging crises (see more on grievances)

3. Participate in activities that protect High Conservation Values (HCVs) and High Carbon Stock (HCS) sites identified and demarcated within its farm areas

4. Help GVL maintain the quality of the water bodies by not use chemical and explosives for fishing purposed and disposal of waste & feces within the concession areas.

5. Collaborate with GVL to stop illicit drugs sale in communities within it GVL concession areas.

6. Assist protect the investment from thieves, sabotage and any illegal activities and respect the private property of GVL

7. Work with GVL to protect wildlife by helping to decide non-approved hunting and then enforce zero tolerance in the farm areas.

8. Assist GVL to maintain the zero tolerance on burning in it concession areas.

9. Assist in sharing factual information about the GVL operations of GVL.

10. Fully participate in awareness and sensitizing activities about the GVL oil palm project.

11. Actively engage to monitor & evaluate activities of the GVL oil palm project.
Issue and Grievance Resolution Process

1. GVL and communities agree to implement the Grievances and Complaints Standard Operating procedure (SOP) shown hereunder. This SOP may be continually improved and amended from time to time GVL and community agree to resolve issues, concerns, grievances and conflicts resulting from the GVL operations or activities deriving from community that has negative impact on either.

2. The parties agreed that reporting of grievance/complaint by community’s member can be made to either GVL or community representatives in written or verbally and any party who receives a complaint or grievance reports it to the GVL Social Sustainability department or to a GVL manager within two days.

3. Each report shall be duly recorded by GVL and made available to the reporter as well as to the joint monitoring team.

4. After the complaint has been received, field investigation should be carried out by GVL, Community representatives and the complainant to verify the complaint.

5. The parties agreed that after the field investigation, a meeting should be called comprising of GVL, community representative and the aggrieved party to agree on actions to address the complaint and the complainant should have the right to say “YES” or “NO” to the decision reached.

6. If the complainant agrees to the decision reached, GVL will within 10 working days after the decision submit action plan to address the complaint as per the decision reached. The action plan to be presented by GVL will be used by the joint community representatives, GVL and the complainant team to monitor progress of the work by GVL.

7. On the other hand GVL and community representative agreed that, if the complainant disagreed to the suggested actions to address the complaint by GVL and community representatives, the complainant will be asked to go to court if he so wish for redress. At this level, GVL and the community representative will work together as a team to fight the case in court.

2014-8-22 Provisional MoU and Social Agreement Po-River
Working in the Liberian Southeast, we aspire to be among the best Oil Palm developers in the global industry. We stand to be measured on our eight key values.

1. Successful investing, meeting the expectations of investors and funders
2. Ending rural poverty and bringing the beginnings of long term prosperity, education and health to communities where we develop
3. Preserving the natural environment, helping conserve flora, fauna, water and carbon in Liberia
4. Respecting community self-determination, sovereignty, culture and traditions of our hosts, through free, prior and informed choice of communities to work with us and preserving their sacred heritage
5. Developing the skills and careers of our Liberian employees and suppliers, especially of the people originating from our partner communities
6. Practicing the best methods of legal compliance, regulatory adherence, procedures and Oil Palm agriculture, founded on highly developed skills, systems and attitudes
7. Building value added, helping the country of Liberia escape a traditional role as a supplier of cheap raw materials
8. Continuing improvement and betterment in what we do, with engagement of credible organizations who share all or same of these objectives, whether partnering with us, challenging us, or critical of us.

A Brighter Future for Liberia
